

PUBLIC SERVICE COMMISSION OF SOUTH CAROLINA

CHIEF HEARING OFFICER DIRECTIVE

DOCKET NO. 2021-186-S - ORDER NO. 2021-89-H

JUNE 29, 2021

CHIEF HEARING OFFICER: David Butler

DOCKET DESCRIPTION:

Application of Condor Environmental, Incorporated Requesting Approval of a Reduction in Rates Charged to the Country Place Homeowners' Association and the Fairview Chase Homeowners' Association

MATTER UNDER CONSIDERATION:

Request for Extension of Time to Notify Customers

CHIEF HEARING OFFICER'S ACTION:

Condor Environmental, Incorporated ("Condor") requests an extension until July 14, 2021, to provide the notice required by the Commission's Directive of June 23, 2021, in the above-referenced docket. The Directive issued in this matter required notice to be provided within ten days of the Directive's date, which, with the State Holiday, would be July 6, 2021. According to Condor, its President, Jason Weaver, and Vice-President, Brad Weaver, will be out of town until July 4, 2021. Jason and Brad Weaver run Condor's office, according to the Company, and it would be exceedingly difficult for the Company to provide the required notices without them. Also, according to Condor, the request would not prejudice Condor's customers in Country Place and Fairview Chase, whose rates and right to object would not be affected if the request is granted. Further, even though, according to Condor, the actual customers of Condor are the homeowners' associations, Condor states that, in keeping with the spirit of the Commission's directive, it intends to mail a notice to each homeowner receiving service. Because of the reasoning as stated by Condor, the extension until July 14, 2021 to provide customer notice as ordered by the June 23, 2021 Commission Directive is hereby granted. This completes the Chief Hearing Officer's Directive.
